Basic Cyber Investigations: Dark Web & Open Source Intelligence

This course provides expert guidance in the skills law enforcement officers need to conduct successful online investigations. Topics include IP addresses and domains, an overview of currently popular social media platforms, best practices for building an online undercover profile, foundational knowledge related to the dark web, and the use of the dark web as an investigative tool. Instructors demonstrate both open-source and commercially-available investigative tools for social engineering, information gathering, and artifacts related to social media; as well as automated utilities to capture information and crawl websites.

Internet basics	IP address assignment; resolving domains and IP addresses; networking overview.
Popular sites	Facebook, Twitter, KiK Messenger, Snapchat, Instagram, tumblr, and more.
The dark web	Surface, deep, and dark web; how data flows through the internet. Who uses the dark web and how?
Tor	How to access Tor; how Tor traffic works; how a Tor Hidden Service works; installing and configuring the Tor Browser Bundle.

To participate in live demonstrations, students must use a Gmail account to create Facebook, Twitter, and Instagram accounts prior to coming to class.
